CALENDAR 1960-61

Fall Semester:

August 31, Wednesday, 8:00 A. M. Orientation of Freshmen

September 1-2, Thursday and Friday Registration and
Classification

September 5, Monday Classes Begin

September 14, Wednesday Last day to register for full load

September 19, Monday Last day to register for reduced load

November 23, Wednesday, 10:00 A. M. Thanksgiving Holidays
Begin

November 28, Monday Classes Resume

December 21, Wednesday, 10:00 A. M. Christmas Holidays Begin

January 3, Tuesday Classes Resume

January 10-13, Tuesday through Friday Fall Semester

January 13, Friday Exams

..... Fall Semester Ends

Spring Semester:

January 16, Monday Registration and Classification

January 17, Tuesday Classes Begin

January 30, Monday Last day to register for full load

February 3, Friday Last day to register for reduced load

March 22, Wednesday, 10:00 A. M.	Spring Holidays Begin. (Date may be changed to coincide with M.E.A.)
March 27, Monday	Classes Resume
May 14, Sunday, 11:00 A. M.	Baccalaureate Sermon
3:00 P. M.	Graduation
May 16, Tuesday	Spring Exams Begin
May 19, Friday	Spring Exams End

BOARD CALENDAR 1960-61

Board is charged by month of four weeks.

August 31, Wednesday	First Month
September 28, Wednesday	Second Month
October 26, Wednesday	Third Month
November 23, Wednesday	Fourth Month
January 3, Tuesday	Fifth Month
January 30, Monday	Sixth Month
February 27, Monday	Seventh Month
March 27, Monday	Eighth Month
April 24, Monday	Ninth Month

OFFICERS OF ADMINISTRATION

1960-61

Frank B. Branch	President
Ernest W. Wilson	Dean and Guidance
Mrs. Frank Branch	Registrar
L. W. Owens	Principal of High School
Stanley F. Allen	Business Manager
Mrs. Norma Brown	Dean of Women
D. B. Litton	Dean of Men

COMMITTEES OF THE FACULTY

Credits and Curriculum:

Mr. Wilson, Mrs. Branch, Mr. Thomas, Mr. Griffin, Mr. Owens, and Mr. Miley.

Discipline:

For Men: Mr. Thomas, Mr. Rozzell, Mr. Phillips, Mr. Maxwell, Mr. Miley, Mr. Mustin, and Mr. Litton.

For Women: Mrs. Brown, Miss Thomas, Miss Carithers, and Miss Akers.

Library:

Mrs. Dorsett, Miss Akers, Mrs. Branch, Miss Bostwick, and Miss Jackson.

Campus and Buildings:

Mr. Litton, Mr. Almond, Mr. Spell, and Mr. Van Keuren.

Publications and Publicity:

Mr. Almond and Miss Akers.

Religious Activities:

Mr. Griffin, Mrs. Lorange, Mrs. Jacob, and Miss Jackson.

Mrs. W. Y. Sudduth	Asst. Manager, Cafeteria
Mrs. L. W. Owens	Study Hall

GENERAL INFORMATION

LOCATION

Holmes Junior College is located at Goodman, Mississippi, in the eastern part of Holmes County. The town and college, located on Highway 51 eight miles south of Durant, can be reached by means of Southern Trailway Bus Lines and the Illinois Central Railway. This location is especially convenient to students from Attala, Carroll, Choctaw, Grenada, Madison, Montgomery, and Yazoo Counties.

Goodman, though a small town, is well suited as the location for a junior college. Its people are proud of the school and accord its students a most cordial welcome. Through the churches — Baptist, Methodist, Presbyterian — a special effort is made to serve the students of the college and make them feel at home.

HISTORY

Holmes Junior College had its beginning in 1911 when Holmes County set aside 450 acres of land near Goodman, Mississippi, and established Holmes County Agricultural High School. It remained a high school until 1925 when one year of college work was added. After three years of experiment, the Superintendent and the Board of Trustees added a second year of college work, making the school a full-fledged junior college in 1928.

Holmes County has been entirely responsible for the development of the plant which is now valued at more than \$2,000,000.00. Holmes, Carroll, Attala, Montgomery, Choctaw, and Grenada counties now jointly support Holmes Junior College and through the board of trustees, composed of members from each of the above counties, jointly control the institution. The state, through legislative appropriations, has assumed an increasing responsibility for the support of junior colleges in Mississippi. Thus, through district and state cooperation, Holmes Junior College has come to take its place among the best junior colleges in the state system.

PURPOSE

The purpose of Holmes Junior College is to serve the young people of the area by providing a well-balanced school program. The curriculum which provides two full years of academic work, leading to various degrees when transferred to the state university level. For those who do not plan to continue beyond the college level, it seeks to provide vocational courses of a terminal nature. In addition to these, it provides a varied extracurricular program which, integrated with its academic and vocational programs, will tend to produce well-rounded personalities fitted to fill their respective places in a democratic society.

SCHOOL PLANT

The Campus of Holmes Junior College, beautifully landscaped with shrubs and trees, is located on the highest peak in the area of about twenty-five square miles. In this setting are to be found two dormitories for women, two dormitories for men; the Administration Building in which are located the administrative offices, a number of class rooms, and the auditorium; a classroom building; the Home Economics Building; the Science and Music Building; the Dining Hall; the Student Center, the Gymnasium, the Band Hall; and the athletic field.

Adjacent to the campus is the farm which in addition to providing the dairy herd, hogs, vegetables and feed crops, serves as a laboratory for the Agriculture Department.

LIBRARY

The library is centrally located on the second floor of the Administration building. It provides ample space for the reading room and the annually increasing book collection.

There are now more than ninety-five hundred volumes, exclusive of government publications and bound periodicals in the shelves. In addition, many federal and state bulletins, unabridged dictionaries, encyclopedias and general works of various sorts are provided for the use of all students. The library subscribes to between seventy and eighty current magazines and daily and weekly newspapers, which provide current information on the affairs of the world and recreational reading material.

An annual budget, based on the enrollment, is adequate to keep up replacements and provide for the addition of new materials and books year by year.

Students are urged to use these facilities as extensively as schedules will permit for both recreational and informational reading.

Current magazines and newspapers are not to be taken from the library. Books placed on reserve may be checked out just before closing time and must be returned at the next opening hour. All other books may be checked out for a period of one week and may be checked out for an additional week at the discretion of the librarian.

ACCREDITATION

The High School Department of Holmes Junior College is fully accredited by the High School Accrediting Commission of the State of Mississippi and by the Southern Association of Colleges and Secondary Schools.

The College Department is accredited by the Junior College Commission of the State of Mississippi and by the Southern Association of Colleges and Secondary Schools. It is also a member of the American Association of Junior Colleges.

EXPENSES

Expenses for Non-Boarding Students from Holmes, Carroll, Attala, Montgomery, Grenada, and Choctaw Counties:

Due upon Entrance:

Matriculation fee (non-refundable)	\$ 5.00
Fees (for first semester)	20.00

Total Fees (for first semester) \$25.00

Due January 3:

Matriculation fee (non-refundable)	\$ 5.00
Fees (for second semester)	20.00

Total fees (for second semester) 25.00

Total fees (for year) \$50.00

Mississippi students whose parents reside outside of the above listed counties pay \$5.00 per month out-of-county tuition in addition to the fees listed.

BOARDING STUDENTS

Schedule of Monthly Payments

IN-County Students means students from Holmes, Carroll, At-

tala, Montgomery, Grenada, and Choctaw counties.

Out-of County Students means all other Mississippi Students

	In-County	Out-of-County	Out-of-State
August 31	\$59.00	\$64.00	\$134.00
September 28	34.00	39.00	34.00
October 26	34.00	39.00	34.00
November 23	34.00	39.00	34.00
January 3	59.00	64.00	134.00
(Includes second semester fees.)			
January 30	34.00	39.00	34.00
February 30	34.00	39.00	34.00
March 27	34.00	39.00	34.00
April 24	34.00	39.00	34.00

NOTE: The amounts given include room, board, laundry, medical fee, tuition, fees and athletic ticket. They do not include books and other items of personal expense. There are no additional fees for laboratories, music, etc. A graduation fee of \$6.00 for high school students and \$8.00 for college students and a late registration fee of \$2.00 is charged when applicable. A charge of \$5.00 for the annual and annual picture is made of all college students. This charge is non-refundable and is collected at the beginning of each school year. A charge of \$1.00 per semester for the school paper is collected at the beginning of each semester and is non-refundable. This fee applies to highschool and college students. High school students are charged \$1.00 for their annual picture. All students must provide a picture to the school authorities for record purposes. The charges listed above include this school picture.

The following refund policy regarding fees has been adopted for all students. The matriculation fee of \$5.00 is non-refundable (This fee is a part of the \$25.00 entrance fee, paid once per semester.) The balance (\$20.00) is refundable as follows: students attending for one week or less will be refunded 75% of listed rate, students attending longer than one week will receive no refund. Out of county tuition, payable monthly and in advance, is not refundable.

MEAL TICKETS AND BOARD REFUND

Each student upon payment of his board will be issued a meal ticket good for the current board period. Students will need to present this at each meal or pay for the meals. Meal tickets are not transferable.

No deduction can be made for board for an absence of less

than two weeks in succession; then only when the student presents to the office after his return a statement approved by the manager of the student's dormitory specifying the period of his absence.

NON-RESIDENT TUITION

There will be a non-resident tuition charge of \$75.00 per semester for all students whose parents are not legal residents of the state of Mississippi. Non-resident tuition is due and payable at the beginning of each semester.

The following refund policy regarding non-resident tuition has been adopted for all students. Students attending one week or less will be refunded 75% of listed rate; students attending longer than one week will receive no refund.

SUMMER SCHOOL EXPENSES

High School (For a six weeks' term)

Fees	\$25.00
Board	54.00
Laundry	6.00

Total for six weeks \$85.00

Total for three weeks \$42.50

College (For a three-week term)

Board	\$27.00
Laundry	3.00
Matriculation	5.00
Fees (per semester hour)	5.00

Total for three weeks \$50.00

SUMMER SCHOOL

High School Summer School consists of one six-week term and one three-week term. Not more than one and one-half units of new work may be taken during the nine weeks of summer school nor more than two units of repeat work.

College Summer School consists of three three-week terms. No student may take more than one hour per week or three hours for three weeks. For additional information write to the President or Dean, Holmes Junior College, Goodman, Mississippi.

SELF-HELP OPPORTUNITIES

Based on financial need, opportunities are offered deserving young ladies and young men to help defray school expenses. Jobs are available in the cafeteria, the dormitories, and other buildings on the campus. In addition to these, office work is available to those who have had some previous training in this type of work.

Those students who are interested in any of these jobs should make application directly to the President.

STUDENT LOANS

Holmes Junior College is participating in the Federal Student Loan program. High school seniors may make application for loans to pursue college work. To receive the loan, the student must be enrolled in regular college work.

Those desiring information concerning a loan should write the President.

GENERAL REGULATIONS

1. Gambling, drinking, possession of intoxicants, and firearms are prohibited.
2. Cooking in rooms is not allowed.
3. All boarding students are required to send their laundry to the college laundry. All articles to be laundered should be marked with the full name of the owner.

ROOM RESERVATIONS

Rooms may be reserved by filling out the application for admission found in the front of this catalogue and enclosing \$2.50. If you wish to be sure of a billet at Holmes, you should reserve a room.

Address your application to: The Business Manager, Holmes Junior College, Goodman, Mississippi.

ROOMS AND ROOMMATES

Rooms in the dormitories are furnished with single beds, dressers, chairs, and tables. Students are accountable for the care of the room and the furnishings in them. Each student is expected to supply his own linens.

One's roommate is much more to be considered than room. The authorities are willing for one to select his own roommate. Should that preference prove unwise, a change can be arranged.

MEDICAL ATTENTION

A nominal medical fee is charged, for which we are able to provide the services of a competent physician. This fee, however, does not provide for medicines prescribed by the physician. In case of serious illness, the parents are notified. In emergencies the school will assume the responsibility of getting students to the nearest hospital, but will not assume the hospital expense.

LAUNDRY AND DRY CLEANING

The college owns and operates its own laundry and dry cleaning on a non-profit basis. Thus, we are able to give our students excellent laundry service at a minimum cost of \$4.00 per month of four weeks. Dry cleaning charges are minimum.

BOOKS

Books and supplies may be purchased from the book store located in the Student Recreation Building. Both new and used books are available. The book store will buy books from students at a reasonable discount, depending upon the care that has been given in the use of the books.

By careful buying and use of books, the cost of books may be kept to a minimum.

STUDENT PUBLICATION

The Paper — "The Growl"

The College Paper — "The Growl" — Suggested by our teams known as "Bulldogs" has won its way into the lives of our student and friends and each one eagerly awaits the following issue. Through the columns of the school paper, the students find a chance to learn the art of news writing at close range. In accordance with an amendment to the constitution of the Student Body Organization, a subscription price of \$1.00 per semester will be collected through the business office.

COLLEGE ANNUAL

"The Horizons," published for the first time during the session of 1928-29, is a credit to the institution and to those who make it a success. It's a beautiful book and in years to come will remind every one of those good friends and pleasant experiences of college days.

ATHLETICS

Our athletic program includes football, basketball, baseball, tennis, and track.

Students representing the school in athletic contests are expected to do satisfactory class work and to conform to all regulations of the Junior College Association of which this school is a member.

The school also provides a well-organized physical education program for girls.

BAND

One of the most enjoyable and profitable activities for our students is work with the band. Every effort is being made to make our band one of the best in the state. To this end, we are offering a limited number of scholarships for key personnel. Every student who has had any previous training, or who is definitely interested, should become a part of this organization.

CHOIR AND GLEE CLUB

The Holmes Junior College Choir (mixed group) and the Girls' Glee Club are two of the most active organizations on the campus. These clubs, under the direction of Mrs. Martha McKie, present annual cantatas and concerts and participate in the annual choir festivals. Every spring the groups present programs of sacred music at churches of neighboring towns.

Smaller groups — trios, quartets, sextets, and octettes — are chosen from the Choir and Glee Club and give programs to the various groups of high school assemblies throughout our area. In addition to providing entertainment for these various organizations, it provides excellent training for our young people.

Regular meetings are held every week, and one hour credit is given each semester.

RELIGIOUS ACTIVITIES

Holmes Junior College is a state supported institution, and is therefore non-sectarian. It, however, believes in the full development of the spiritual nature of its students. They are encouraged and urged to take part in the Christian organizations on the campus, as well as to participate in the services of the local churches.

Religious training is obtained through participation in the Student Christian Association, a non-denominational organization of students under the leadership of faculty sponsors. Through the daily prayer groups, bi-weekly Morning Watch services, Sunday Vespers, denominational group meetings, the bulletin board "Daily Thoughts," and the personal service rendered by the carefully chosen Student Christian Association Cabinet Members, Christianization touches the lives of all of the students of the college. An effort is made to include every student capable of understanding or interested in any phase of religious development. The programs presented during the year. Upon request, every student is given an opportunity to become a member of the Student Christian Association; or if the student belongs to a particular denominational group, he is automatically a member of the Student Christian Association. The denominational groups on the campus work in co-operation with the local churches through their division.

SOCIAL LIFE

Adequate provision is made for the social development of our students through both formal and informal occasions planned by a joint committee of the students and faculty. All parties, dances, and other entertainment are so planned that they do not interfere with the school work; yet they provide for the social development of the students.

Scholastic Regulations

EXAMINATION AND CLASSIFICATION

Two regular examinations will be held during the session—one at the close of each semester. Tests will be given and grade cards turned into office at the close of each six weeks. Special examinations on subjects conditioned in our school will be given before the seventh week of the session. The basis of classification with minimum units needed is as follows: Tenth grade, three units; eleventh grade, seven units; twelfth grade, eleven units; college freshman, 15 units; college sophomore, 26 semester hours. The classification applies to the record of the student at the beginning of the session. Exceptions may be made at midterm in case of students who have a chance and expect to graduate at the following commencement.

GRADING

Grading will be made in letters A, B, C, and D as passing grades, E as conditional, F as failing, and I as incomplete. On a percentage basis, grades may be interpreted as follows: A—93 and above; B—85 through 92; C—75 through 84; D—68 through 74; E—60 through 67; and F—below 60. A grade of E indicates a character of work that is not satisfactory, but which may be changed to a passing grade without repeating the course. This means that an additional amount of work together with another examination may be required. Incomplete indicates that some necessary work for the course has not been satisfactorily completed. E's and I's must be removed within six weeks of the following regular school term, or the grade will automatically be recorded as an F.

SEMESTER HOURS

A semester hour of college credit is defined as the credit earned when a course meets one hour per week for eighteen weeks on a lecture basis. Normally, 128 to 144 such hours are required for a degree from a senior college. Sixty-four semester hours are required for graduation from most Junior Colleges.

QUALITY POINTS

Quality points are assigned as follows: Three quality points for each semester hour with a grade of A, two quality points for each semester hour with a grade of B and one quality point for each semester hour with a grade of C.

An average of at least one quality point per semester hour is required for graduation at all senior colleges.

HONORS

Students who make a better than average scholastic record are recognized each six weeks by making the "Dean's List." The "Dean's List" consists of three parts, namely: (1) those with a quality point average of 2.7 and above, (2) those with a qu-

point average of 2.4 to 2.7, and (3) those with a quality point average of 2.0 to 2.4.

Honors at graduation for college students are as follows: those who have earned 2.7 quality points and above for each semester will be graduated with "Special Honors". Those who have earned 2.4 quality points to 2.7 quality points per semester will be graduated with "Honors".

REPORTS

A report of the student's work is made to the student and parents at intervals of six weeks. Students who desire a copy of these grades should make a request of the registrar. After one copy has been sent, a charge of fifty cents will be made for additional copies.

ABSENCE FROM CLASSES

A student should realize from the beginning that he suffers a great loss each time he is absent from class and also causes his classmates to lose time.

Students are allowed one absence from each class each semester without question. Once a student has absented himself from a class, he must at all future times of absence justify the absence as being necessary. Absences due to personal business should be kept to an absolute minimum and must be cleared in advance unless the student can show an emergency was involved.

Parents should realize that their children cannot do their best work when they miss classes and that the school cannot honor excuses except for emergencies.

Absences due to school activities are excused, but in all cases the student is responsible to make up work that was missed.

Students missing a scheduled hour test without sufficient reason will not be allowed to make up the test and will receive an F for the test grade.

Grades are lowered when a student cannot justify his absences.

Absences before and after stated holidays will count as double absences.

ACADEMIC FAILURE

A student who fails to pass nine semester hours in a regular semester automatically becomes an academic failure.

An academic failure for one semester is placed on probation and will be subject to strict regulations. An academic failure for two semesters is ineligible to re-enter Holmes Junior College for the next semester.

HIGH SCHOOL

Admission

Students are admitted to the High School Department on the basis of the eighth grade in an accredited school. A transcript of results indicating an honorable withdrawal from the school from which the transfer is made must be presented to the High School Principal at the time of enrollment.

REQUIREMENTS FOR GRADUATION

The minimum plan for the High School follows that suggested by the National Council of Education. Sixteen units are required for graduation. Of these sixteen, the following are specifically required:

English	4
Mathematics (Alg. I and Alg. II or Plane Geom.)	2
Home Economics for Girls	1
Foreign Language (one of which must be American History)	2
Electives	5

Students may elect one unit in science may be substituted for one unit in foreign language. Special attention should be given college entrance requirements when selecting the electives.

High School Curricula

As a guide for students in classifying, we group the courses as follows:

First Year

English	1
Algebra I	1

Social Science	1
Agriculture	1
Home Economics	1

Second Year

Plane Geometry	1
English	1
World History	1
Biology	1
Agriculture	1
Home Economics	1

Third Year

English	1
American History	1
Agriculture	1
Home Economics	1
Algebra II	1
Shorthand and Typing	1
Hygiene and Geography	1
Music	1
Physical Education	1
Chemistry	1
Physics	1

Fourth Year

English	1
American Government and Economics	1
Shorthand and Typing	1
Agriculture	1
Home Economics	1
Music	1
Physical Education	1
Chemistry	1
Physics	1
Trigonometry	1

THE JUNIOR COLLEGE

Admission to College

Students are admitted to Holmes Junior College by certificate, by examination, or as special students.

Graduates of an accredited high school may be admitted on presentation of a transcript showing not less than fifteen acceptable units.

All students must have earned at least three units in English, two units in mathematics, two units in history or other social science, and eight additional units meeting the requirements as set up by the High School Accrediting Commission.

Students majoring in Engineering, Mathematics, or Science must have earned one unit in science, two in algebra, and one unit in plane geometry. Students lacking any of these required subjects will be admitted to Holmes Junior College provided they schedule the deficient high school subjects the first semester enrolled here.

Students who are not graduates of an accredited high school may apply for admission by special examination. The student must show through examination that he has the ability to do satisfactory college work.

A student's credits must be received and accepted before a permanent classification can be given. Transcripts of credits should be mailed by the high school official directly to the Registrar at least two weeks before the opening of school.

WITHDRAWAL

A student withdraws from Holmes Junior College. He is required to fill out a withdrawal form and have it signed by a parent or guardian. Any student leaving school without his school being cleared will have his records frozen. His records will remain frozen until the student clears up his financial indebtedness to the school.

A student who is absent for more than six weeks of the first six weeks of school and was passing at the time of withdrawal will receive a grade of **W.F.** will be considered as failing at the time of withdrawal. A student who withdraws will receive a **W.F.** in all subjects.

REQUIREMENTS FOR GRADUATION

Candidates for graduation may pursue either of two courses; first, toward the "Associate in Arts Degree;" and second, toward a "Junior College Diploma."

A candidate for the "Associate in Arts Degree" must complete a minimum of 64 semester hours including not more than four non-academic hours. The hours earned must be applicable to a course outlined in our catalogue. The candidate must earn at least 64 quality points on subjects applicable to his chosen course of study. Six hours of English composition is required of all candidates.

Candidates for the "Junior College Diploma" must complete 64 semester hours. Six semester hours of English composition are required of all candidates. Students who expect to work toward a degree would not pursue this course of study.

Nine months of residence work is required for graduation.

Candidates for graduation should file their applications with the Registrar for Associate of Arts, Diploma, or Special Department Certificate not later than March tenth for graduation in May.

One transcript will be furnished each student free of charge. For each additional transcript, there will be a charge of one dollar.

COURSE XXVIII

COSMETOLOGY

This course is designed for beauticians and hair dressers and is approved by the State Board of Education and the Mississippi Board of Cosmetology. A student who completes this course will be issued a certificate which entitles her to take the State Cosmetology Board examination for a license to become a beauty operator in the State of Mississippi.

The class is limited to twenty students. The fees for the course are \$100 plus cost of books and graduation fee. A \$5.00 deposit which is non-refundable is required to assure a student a place in the class. Room and board are available on the campus at the regular student rate of \$30.00 per four weeks of school.

COURSE TE 320

RADIO

The duration of this course is 18 months.

Radio maintenance and construction, electricity or radio and design and operation of equipment must be mastered by the student. The student must learn the use of all tools and necessary equipment for construction work in good shop practice, receiver and transmitter operation. Circuit design and operation of equipment is required of each student.

A fee of \$15.00 per month is charged for this course.

COURSE TE 430

TELEVISION AND F.M.

The duration of this course is eight and one-third months.

The course is designed to give the student actual experience in the construction and operation of television and F.M. receivers by building and operating this equipment. Television and F.M. antennae will be constructed. Maintenance and repair of television and F.M. receivers; the proper use of tools and necessary equipment; and television theory are required of the student.

A fee of \$15.00 per month is required for this course.

Description Of Courses

ACCOUNTING

100-1000

AC 100-1000 Accounting Principles

Three years. First year. Accounting. First course. First year.

Second year. Second year. Second year. Second year.

Second year. Second year. Second year. Second year.

AG 353—Principles of Agricultural Economics.

Three lectures. Three credits.

A general course on the basic principles of economics and their application to agriculture. Special emphasis will be placed on economic problems of agriculture; American economic development, production, and business organizations; the law of diminishing returns, some principles of trade and production, farm organization, exchange value and the market price, cost of production, price level movement, and the farm problem and the government.

AG 463—Farm Machinery.

Two lectures. Two hours laboratory. Three credits.

A general course in farm machinery, including horse-drawn and power-drawn equipment, with special emphasis on trends toward farm mechanization, its possibilities and limitations as related to agriculture in Mississippi.

AG 473—Poultry Production.

Two lectures. Two hours laboratory. Three credits.

A general course in poultry production with special emphasis being placed upon selection of breeds, incubation and brooding of chicks; feeding, breeding, disease control, housing and marketing of poultry.

AG 483—General Horticulture.

Two lectures. Two hours laboratory. Three credits.

A general course in horticulture with special emphasis being placed on selection of site, systems of laying out orchards, selection of horticultural crops and varieties best suited to Southern conditions, management, and insect control.

BIBLE

Rev. Smathers

BB 302—Old Testament

Two lectures. Two credits.

A study is made of the Old Testament record of Hebrew history, prophecy, worship, and wisdom and the relation these bear to Christianity.

BB 402—New Testament

Two lectures. Two credits.

A study of the work of Christ as recorded in the four gospels and the writings of Luke, Paul, James and John.

BIOLOGY

Mr. Miley

BI 103—General Zoology.

Two lectures. Two hours laboratory. Three credits.

A survey of the animal kingdom designed to give some acquaintance with the basic biological principles and facts underlying all life. Representatives of all phyla are studied from the standpoint of morphology, physiology, ecology, etc.

BI 104—General Zoology.

Two lectures. Four hours laboratory. Four credits.

Same as BI 103 except for laboratory.

BI 203—General Zoology.

Two lectures. Two hours laboratory. Three credits.

A study of the structure, habits, development, function, distribution, heredity, and economic importance of chordate animals.

BI 204—General Zoology.

Two lectures. Four hours laboratory. Four credits.
Same as BI 203 except for laboratory.

BI 223—General Botany.

Two lectures. Two hours laboratory. Three credits.

A survey course in the fundamental facts and principles of plant life, with particular reference to form, structure, physiology, and reproduction in representatives of the group of higher plants.

BI 323—General Botany.

Two lectures. Two hours laboratory. Three credits.

Representative groups in the plant kingdom; habitat; structure; reproduction; economic importance; phylogeny.

BUSINESS LAW

Mr. Allen

BL 303—Business Law.

Three lectures. Three credits.

Normal business relations from a legal standpoint with emphasis on the laws of contracts, agency, negotiable instruments, and employer-employee relations.

BL 403—Business Law.

Three lectures. Three credits.

Normal business relations from a legal standpoint with emphasis on the laws of property, bailments, carriers, sales, insurance, corporations, trusts, and partnerships.

CHEMISTRY

Mr. Griffin

CH 114-214—General Inorganic Chemistry.

Three lectures. Three hours laboratory. Four credits.

An introductory course dealing with such fundamentals as atomic structure, chemical reactions, chemical equations, ionization, chemical calculations, electrochemistry, atomic energy, preparation and properties of inorganic substances and qualitative analysis.

CH 325-425—Organic Chemistry.

Three lectures. Six hours laboratory. Five credits each semester.

Prerequisite CH 114 and 214. A study of the aliphatic and aromatic compounds with special attention given to their molecular structure, methods of preparation, reactions, properties, and uses.

DRAWING

Mr. Thorne

DR 102—Mechanical Drawing.

Six hours. Two credits.

The use of instruments; constructions; orthographic projections; and practice in technical sketching.

DR 202—Mechanical Drawing.

Six hours laboratory. Two credits.

Prerequisite DR 102. Continuation of DR 102. This course

DR 315—Architectural Drawing.

Ten hours laboratory. Five hours credit.

A study of the fundamental principles of architectural drawing.

DR 413—Descriptive Geometry.

Two lectures. Three hours laboratory. Three credits.

Prerequisite DR 102. Theory of drafting; exercises in engineering problems; descriptive geometry; practical applications.

DR 415—Structural Drafting

Ten hours laboratory. Five hours credit.

Architectural drawing in continued. Emphasis is placed upon design and construction of buildings, plumbing, heating, air conditioning, and electrical circuit layouts.

ECONOMICS

Mr. Allen, Mr. Thomas

EC 203—Principles of Economics.

Three lectures. Three credits.

This course is offered for the purpose of introducing the student to the principles of economic production, distribution, and consumption. Direct attention is paid to current economic trends.

EC 413—Problems of Economics.

Three lectures. Three credits.

The purpose of this course is to acquaint the student with some of the modern economic problems and the reasons for such differences in the economic and social causes.

EDUCATION

Miss Jackson

ED 213—Literature for children.

Three lectures. Three credits.

Literature on elementary school grade levels.

ENGLISH

Miss Akers, Miss Bostwick, Miss Jackson

The courses of study offered in English have these purposes:

1. To teach the student to avoid common errors in speech and writing.

HOLMES JUNIOR COLLEGE AND A.H.S.

- 2 To give all students proficiency in writing of clear and correct English.
- 3 To make them familiar with outstanding works that are the literary heritage of the English speaking people.

EN 113-213—English Composition.

Three lectures. One hour laboratory. Three credits.

This course consists of a review of grammar and usage, study of fundamentals of composition, and analysis of selected prose. Methods of study and use of the library are stressed. Second semester's work is a continuation of the first with preparation of a research paper included.

EN 333-433—A Survey of English Literature.

Three lectures. Three credits.

The first semester's work in this course is a survey of English literature from the beginnings through the Eighteenth Century. Emphasis is placed primarily on the literature itself with some attention given to biographical studies, criticism, and historical backgrounds. The second semester's course begins with the English Romantic Movement and continues to the present. (Prerequisite EN 113, 213 or equivalent)

HOME ECONOMICS

Miss Carithers

The purpose of this department is threefold:

- 1 To give the young woman an intelligent appreciation of the occupation of homemaking, and to broaden their outlook on life through consideration of the social and economic factors which govern the home.
- 2 To cultivate their aesthetic taste in the selection of clothing and in the decoration of the home.
- 3 To develop their ability to apply the various principles taught in the selection and preparation of food, and to develop the same ability in the construction and care of clothing and the efficient management of the home.

HE 103-203—Food and Nutrition.

Two lectures. One hour laboratory. Three credits.

This course gives the student the fundamental principles of food with special reference to their selection, purchasing, cooking, and preservation. It also covers the nutritive value, and place in the diet of the various food groups, and the requirements of the body and the quality of food to meet these requirements.

food with preservation, study of the nutritive value.

HE 333-433—Textiles and Clothing.

Two lectures. One hour laboratory. Three credits.

The purpose of this course is to make a study of the textile fibers (cotton, linen, wool, silk, and rayon) and of weaves, adulterations, and finishes used for each, clothing selection and construction with a consideration of the economic, aesthetic, and hygienic aspects. It includes the application of the principles of color and design to individual adaptation and alteration, and care and repair of clothing.

HISTORY

Mr. Morris, Mr. Sudduth

HI 103—Early World Civilization.

Three lectures. Three credits.

This course is intended as a survey of World Civilization from prehistoric times to the discovery of America. The main purpose will be to study the trends in the history of the world with particular emphasis on their relation to present day living. The object of the course is to study the political, social, economic, and religious thought of the times, together with the wars and (so-called) science and art of those times.

HI 203—Modern World Civilization.

Three lectures. Three credits.

This course is a continuation of HI 103. One-half of the work will be devoted to the 20th century with its two great world wars. The same approach will be used as in HI 103.

HI 333-433—Early U. S. History.

Three lectures. Three credits.

A survey of U. S. History from 1787 through the Civil War for HI 333 and from the Civil War to the present for HI 433

INDUSTRIAL EDUCATION

Mr. Thorne

IE 113—Introduction to Vocational Education.

Three lectures. Three credits.

A survey of the fields of vocational education.

IE 133—Blueprint Reading.

Three lectures. Three credits.

A basic course involving actual problems in reading architectural, mechanical, and structural drawings.

IE 233—Structural Design.

Three lectures. Three credits.

A study of the principles of structural design.

IE 263—Woodwork.

Six hours laboratory. Three credits.

Knowledge, appreciation and skill in the use of hand tools, wood finishes, fasteners, and job planning

IE 333—Topography.

Three lectures. Three credits.

A survey course dealing with the principles of topography and topographic mapping.

IE 363—Advanced Woodwork.

Six hours laboratory. Three credits

Prerequisite IE 263. Mill practices and techniques, machine and tool operation; job planning and design.

IE 434—Forging and Welding.

Six hours laboratory. Three credits

Practice in hand forging; appreciation of steel; gas and electric welding

IE 443—Costs and Estimates.

Three lectures. Three credits

JOURNALISM

Miss Akers

JO 102—Reporting.

Six hours laboratory. Two credits.
Techniques and skills in reporting.

JO 202—Interpretative Reporting and making of Year Book.

Six hours laboratory. Two credits.
Emphasis on composition and layouts.

JO 301-401—Reporting and Making of Year Book.

Six hours laboratory. One hour credit.
Practice in reporting and year book making.

MATHEMATICS

Mrs. Jacob, Mr. Maxwell, Mr. Wilson

MA 103—College Algebra.

Three lectures. Three credits.
The course will include review of fundamentals, quadratic equations, theory of equations, binomial theorem, and determinants.

MA 113—College Algebra.

Three lectures. Three credits.
Review of fundamentals. Linear and quadratic equations, simultaneous equations, theory of equations, probability and partial fractions.

MA 143—Trigonometry.

Three lectures. Three credits.
The course will include relations of right and oblique triangle, graph of trigonometric functions, cartesian and polar co-ordinates, and conic sections.

MA 183—Business Mathematics.

Three lectures. Three credits.
A course designed to meet special needs of students in the business field.

MA 223—Trigonometry.

Three lectures. Three credits.
The course will include a thorough study of trigonometric functions, least squares, and various solutions of the triangle.

MA 253—Analytical Geometry.

Three lectures. Three credits.
A course in the straight line, circle, parabola, ellipse, and hyperbola, taking up Cartesian and polar co-ordinates, higher plane curves, and conic sections.

MA 263—Differential Calculus.

Three lectures. Three credits.
The course will include differentiation, Maxima and Minima, rates of change, and partial differentiation.

MA 373—Integral Calculus I.

Three lectures. Three credits.
The definite integral, integration, applications.

MA 473—Integral Calculus II.

Three lectures. Three credits.
Multiple integral, approximate integration; series; Taylor's Theorem; differential equations.

MODERN LANGUAGE

Mrs. Branch

ML 103-203—Elementary French.

Three lectures. Three credits.

Elementary grammar, composition, dictation, translation, reading, and conversation.

ML 303-403—Intermediate French.

Three lectures. Three credits.

A thorough review of French grammar; vocabulary building with particular attention to the mastery of common idioms, dictation, conversation, and extensive reading.

MUSIC

Mrs. McKie, Mrs. Lorance, Mr. Carroll

The maximum number of units for high school credit is two. To secure this number of units the following requirements must be met:

- (a) Two hours (2 periods of not less than 30 minutes each) per week of private instruction in applied music; one period of class instruction in the theory and history of music; six hours (one sixty-minute period each day) per week of home practice.
 - (b) For this amount of study and practice each year, one-half unit will be allowed provided at least two years of preliminary study has been made.
-

COLLEGE MUSIC

All major and minor scales (harmonic form) must be played in moderate tempo. The first movement of the sonatina and two melody studies must be played from memory. Candidates for diplomas in music must present a public recital.

THEORY OF MUSIC

MU 101-201-301-401—Sight Singing and Dictation.

One hour lecture. One credit.

The rudiments of music notation and the ability to sing easy melodies with syllables, along with dictation.

MU 103-203—Music Theory.

Four hours lecture. Three credits.

The students learn to recognize and write on hearing; diatonic intervals, major and minor triads, rhythmic and melodic patterns. Keyboard harmony is stressed in this course. Major and Minor chords, scales, intervals, dominant and diminished chords and their inversions are studied through writing and playing four part writing and harmonization of melodies.

MU 113—Music Appreciation.

Three lectures. Three credits.

A cultural course to develop an understanding and appreciation of various musical forms and the literature of music. Attendance at all recitals mandatory.

MU 151-251-351-451—Band.

Five hours laboratory. One credit.

MU 303-403—Music Theory.

Four lectures. Three credits.

A continuation of the first year's work in theory. Eleventh, thirteenth, altered and mixed chords. Modulation. Continuation of keyboard harmony.

MU 443—Music Education.

Three lectures. Three credits.

Survey of methods and materials used in the teaching of music in the elementary and high schools with emphasis on supervision.

PIANO

Two hours practice per day is required for piano majors for credit.

PI 103-203—Freshman Piano.

Three credits each semester.

This course includes the major and minor scales—broken chords and arpeggios—triads, dyads, sixteenth and sixteenth notes. Dominant and diminished chords. The following studies are included: Czerny Op. 299; Bach Two-Part Inventions; Haydn and Mozart Sonatas. Selections of various compositions of corresponding difficulty.

PI 142-242—Piano (Freshmen).

Two credits each semester.

This is a course offered for those who desire to study piano without credit. Work will be assigned which will be of the same level as the piano course. Practice required; six hours per week.

PI 303-403—Sophomore Piano.

Three credits each semester.

This course includes the major and minor scales in thirds, sixths and tenths. Broken chords (Major and Minor). Triads and dyads in various forms and positions in quarters, eighths, sixteenth and thirty-second notes. Op. 740; Bach Three Part Inversions; Beethoven Sonatas; selections from classical and romantic schools. Practice on instrument required.

PI 342-442—Sophomore Piano.

Two hours credit each semester.

A continuation of PI 142 and PI 242.

VOICE

Mrs. McKie

VO 103-203—Freshman Voice.

Three credits each semester. Two half hour lessons a week. Foundation building. Vowels and consonants, their character, treatment and relation to vocal tone. Exercises for flexibility of the muscles of articulation, mechanism of speed and science of tone production. Simple songs.

VO 111-211-311-411—Glee Club.

One credit each semester. Meets twice a week throughout the year.

Required for diploma

VO 121-221—Class Voice.

One credit each semester.

Two hours a week throughout the year.

VO 131-231-331-431—Voice for Students Not Majoring in Voice.

One credit each semester.

VO 303-403—Sophomore Voice.

Three credits each semester. Two half-hour lessons a week throughout the year.

Breathing exercises, rhythms purity of vowels, and sound and enunciation studies. Phrasing, vocalize Marenesi, Concone, etc. English, Italian, and French songs, Classical and modern.

INSTRUMENTATION

Mr. Carroll

IN 102-202-302-402—Woodwind.

Two credits each semester.

Instruction and practice on instrument.

IN 112-212-312-412—Brass.

Two credits each semester.

Instruction and practice on instrument.

IN 132-232-332-432—Strings.

Two credits each semester.

Instruction and practice on major instrument

IN 142-242-342-442—Percussion.

Two credits each semester.

Instruction and practice on major instrument.

OFFICE ADMINISTRATION

Mr. Phillips, Mr. Allen, Mrs. Wilson, Mrs. Phillips

OA 102—Typwriting (Elementary).

Three lectures. Two credits.

Mechanism and care of the typewriter; its operation; keyboard drills to gain speed and accuracy; introduction to letter forms.

OA 113—Shorthand (Elementary).

Three lectures. Three credits.

Study and practice of Grogg and Simplified Shorthand. The principles of reading and writing shorthand with a limited amount of transcription from shorthand notes.

OA 202—Typewriting (Intermediate).

Three lecture periods. Two credits.

Advanced drills for speed and accuracy; letter forms, telegrams and other business forms; manuscript typewriting.

OA 213—Shorthand (Intermediate).

Three lectures. Three credits.

A continuation of OA 113.

OA 302—Typewriting (Advanced).

Three lectures. Two credits.

A continuation of OA 202.

OA 313—Shorthand (Advanced).

Three lectures. Three credits.

Drills for speed and accuracy and speed of transcription, with emphasis on mailability of letters.

OA 333—Business Correspondence.

Three lectures. Three credits.

Main emphasis is upon business letter writing. Correctness of composition, punctuation, and arrangement of material and correspondence methods are included.

OA 402—Typewriting (Advanced).

Three lectures. Two credits.

Actual office problems are presented, solved by the students, and completed in typewritten form. Speed and accuracy are stressed.

OA 413—Shorthand (For Secretaries).

Three lectures. Three credits.

Drills for speed and accuracy. A minimum of 100 words per minute to be reached on new material and 120 words per minute on old material.

OA 321-421—Filing.

One lecture. One credit each semester.

Drills with efficient practice materials are emphasized.

OA 443—Office Machines.

Three lectures. Three credits.

Finger technique and speed in the operation of key-driven full keyboard adding-listing machines, and crank driven machines will be introduced also.

PHYSICAL EDUCATION

Mr. Mustin, Mr. Rozelle, Miss Thomas

PE 101-201-301-401—Physical Development.

One credit each semester. Two periods each week.

This course is intended for boys not participating in major sports and includes varied exercises such as, volleyball, basketball, tennis, and calisthenics. These courses are required for all boys not in major sports.

PE 111-211-311-411—Physical Education for Girls.

One credit each semester. Two periods each week.

This course includes indoor and outdoor exercises. These courses are required for all girls.

PE 121-221-321-421—Football.

One credit each semester.

PE 183—History and Principles of Physical Education.

Three lectures. Three credits.

An interpretation of aims and objectives of physical education based on the findings of Science.

PE 131-231-331-431—Basketball.

One credit each semester. Two periods each week.

PE 241-441—Baseball.

One credit each semester. Two periods each week.

PE 251-451—Track.

Credit, one semester hour each semester.

PE 273—Health.

Three lectures. Three credits.

This course is designed to meet the needs of the students just starting on a college career. Anatomy and physiology are discussed, but the emphasis is placed upon hygiene of rest, study, recreation, habit, exercise and extra curricular activities.

PE 493—Playground and Community Recreation.

Three lectures. Three credits.
